ACQUA

A relaxing aroma that soothes to reduce stress. Aromatic notes of Basil leaves, together with intense and transparent marine traces, represent the beginning of the fragrance that then evolves into a White Musk and ocean sea waves essence.

ARIA

Relaxes and balances the mood while purifying the air. With its green citrus note, you can soon perceive the fresh and intense aromas of lemon and orange flowers. The heart of the fragrance blends into the base notes to bring about the essence of clean air.

WEST

Relaxes, balances the mood, and stimulates energy reserves while purifying the air. An aromatic fusion with head notes of bergamot, lemon and orange flowers essences; a heart made of green tea essence together with cotton notes and a final accord of marine-ozone essences, which forms the underlying base of the fragrance.

An elegant reed diffuser is used to perfume the air with your selected scent throughout your suite.
